

Build a Bird Nest

About the Project

In this project, you will design and build a nest using sustainable and naturally available materials.

Instructions

 **Plan** Your Nest.

 **Think** about the kind of birds using it.

 **Sketch** a simple design.

 **Choose Your Materials.**

 **Build** the Structure.

Make a list of Material

You can select from the list below or add to it as long as it falls into one of the categories.

 **Natural materials:** Twigs, bark, dried leaves, coconut shells

 **Binding materials:** Twine, jute rope

 **Tools:** Scissors, paper cutter

Design Space

Happy building!
